

- Hard Back Cover -

Image Area

Hinge Area

Spine

Wrap

- Thing To Remember When Building Your Hard Back Cover -

- **Keep all images and text that you want to be visible 1/4 inch from the edge of the yellow(Image Area).**
 - **Any images or text that flow into the Hinge will be distorted.**
 - **Any images in the wrap area will not be visible on the cover.**
-

- Soft Cover -

Image Area

Bleed Area

Trim Area

- Thing To Remember When Building Your Soft Cover -

- **You will want to keep any image or text that you do not want to be trimmed off in the Image Area.**
- **The image that flows into the Bleed Area should be able to be trimmed without cutting into anything essential to the cover.**
- **If your cover is to bleed off the edge the image will need to extend about 1/8 past the Bleed Area, keeping in mind that any images in the Bleed Area could be trimmed off or in the fold and any images in the Trim Area **WILL** be trimmed off.**
